[Egonet Software Manual](#)

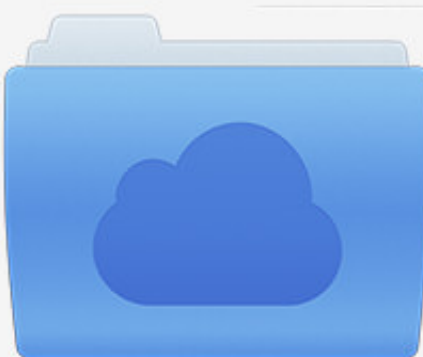

The screenshot shows the EgoNet 2.0 software interface. The main window is titled 'EgoNet 2.0 - EgoNet.gdb'. It features a 'Select Study' dialog with a search box containing 'Sample study'. Below this, there are buttons for 'Export ego attributes and network measures (sav, csv)', 'Select...', 'Backup...', and 'Exit'. A 'Sample study SPSS export' dialog is open, showing a tree view of variables under 'Sample study'. The tree includes 'Questions about Ego' (with sub-items E1: 'How old are you?' and E2: 'Please select your marital status') and 'Alter tie evaluation' (with sub-items AT1: 'Does \$\$ socialize with \$\$\$?' and options Yes, No, Don't know). To the right of the tree are buttons for 'Select All', 'Unselect All', 'Expand All', 'Collapse All', 'Search for Items', 'Export', and 'Close'. A 'Save As' dialog is also open, showing the file name 'peer_influence_case_level_da...' and 'Save as type: SPSS files (*.sav)'. The 'Save in' location is 'EgoNet'.
